

Brianna Murray

Key Points:

- To run the chatbot be sure to replace the OpenAI key with a valid key in the case that the current key has expired.
  - Run the main.py file and follow the command line prompts.
  - Refer to the ChatBotWriteUp.pdf for prompt examples.
  - Reach out to me if you need help with the OpenAI key or have any other questions about the project.
- 

**To get your API key, follow these steps:**

1. Navigate to <https://platform.openai.com/>
2. Click on your avatar in the top right-hand corner of the dashboard.
2. Select View API Keys.
3. Click Create new secret key.
